

Financial Tear Sheet

Corporate Profile

A stable model for future growth.

As the nation's largest provider of wireless infrastructure, Crown Castle is helping enable the essential services that people rely on to stay in touch, conduct business, and live their lives every day. As consumer demand for data services continues to grow, wireless carrier demand for space on our shared infrastructure will only grow with it. This compelling business model, combined with our disciplined allocation of capital, virtually assures our financial stability for years to come. In January of 2014, we officially became a REIT. This conversion marked the alignment of our business structure with our long-term commitment to provide the nation's wireless carriers with the prime real estate they need to meet the demands of their consumers. Because today, access to technology and information is no longer a luxury. It's a necessity.
