## Crown Castle International Corp. Second Quarter 2012 Earnings Conference Call Non-GAAP and Other Reconciliations

### NON-GAAP FINANCIAL MEASURES

Certain of Crown Castle's financial releases and broadcast conference calls include presentations or discussions of Adjusted EBITDA, recurring cash flow ("RCF"), funds from operations ("FFO") and adjusted funds from operations ("AFFO"), which are non-GAAP financial measures. These non-GAAP financial measures are not intended as alternative measures of operating results or cash flow from operations (as determined in accordance with Generally Accepted Accounting Principles ("GAAP")). Each of the amounts included in the calculation of Adjusted EBITDA, RCF, FFO, and AFFO are computed in accordance with GAAP, with the exception of: (1) sustaining capital expenditures, which is not defined under GAAP and (2) our adjustment to the income tax provision in calculations of FFO and AFFO.

Our measures of Adjusted EBITDA, RCF, FFO and AFFO may not be comparable to similarly titled measures of other companies, including other companies in the tower sector or those reported by REITs. FFO and AFFO presented are not necessarily indicative of the operating results that would have been achieved had we converted to a REIT, nor are they necessarily indicative of future financial position or operating results. Our FFO and AFFO may not be comparable to those reported in accordance with National Association of Real Estate Investment Trusts, including as a result of our adjustment to the income tax provision to reflect our estimate of the cash taxes had we been a REIT.

Adjusted EBITDA, RCF, FFO and AFFO are presented as additional information because management believes these measures are useful indicators of the financial performance of our core businesses. In addition, Adjusted EBITDA is a measure of current financial performance used in our debt covenant calculations.

*Adjusted EBITDA*. Crown Castle defines Adjusted EBITDA as net income (loss) plus restructuring charges (credits), asset writedown charges, acquisition and integration costs, depreciation, amortization and accretion, amortization of prepaid lease purchase price adjustments, interest expense and amortization of deferred financing costs, gains (losses) on retirement of long-term obligations, net gain (loss) on interest rate swaps, impairment of available-for-sale securities, interest income, other income (expense), benefit (provision) for income taxes, cumulative effect of change in accounting principle, income (loss) from discontinued operations and stock-based compensation expense.

*Recurring cash flow.* Crown Castle defines recurring cash flow to be Adjusted EBITDA, less interest expense and less sustaining capital expenditures.

*Funds from operations*. Crown Castle defines funds from operations as net income plus adjusted tax provision plus real estate deprecation, amortization and accretion.

*Adjusted funds from operations.* Crown Castle defines adjusted funds from operations as funds from operations before straightline revenue, straight-line expense, stock-based compensation expense, non-real estate related depreciation, amortization and accretion, amortization of deferred financing costs, debt discounts and interest rate swaps, other (income) and expense, gain (loss) on retirement of long-term obligations, net gain (loss) on interest rate swaps, acquisition and integration costs, and asset-write down charges, less capital improvement capital expenditures and corporate capital expenditures.

*Sustaining capital expenditures.* Crown Castle defines sustaining capital expenditures as either (1) corporate related capital improvements, such as information technology equipment and office equipment or (2) capital improvements to towers sites for those that enable our customers' ongoing quiet enjoyment of the tower.

The tables set forth below reconcile these non-GAAP financial measures to comparable GAAP financial measures. The components in these tables may not sum to the total due to rounding.

#### **Cautionary Language Regarding Forward-Looking Statements**

The reconciliations set forth herein contain forward-looking information that are based on our management's current expectations as of the date of the second quarter 2012 earnings conference call. Such statements include, but are not limited to, plans, projections,

Outlook and estimates contained under the heading "Outlook Reconciliations of Non-GAAP Financial Measures to Comparable GAAP Financial Measures." Words such as "Outlook" and "Forecast" are intended to identify forward-looking statements.

Such forward-looking statements are subject to certain risks, uncertainties and assumptions, including but not limited to prevailing market conditions and factors. Should one or more of these or other risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those expected. More information about potential risk factors which could affect our results is included in our filings with the SEC. Crown Castle assumes no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise.
