SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2015

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period to

Commission File Number 001-16441

**CROWN CASTLE INTERNATIONAL
CORP.**

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction
of incorporation or organization)

76-0470458
(I.R.S. Employer
Identification No.)

1220 Augusta Drive, Suite 600, Houston, Texas 77057-2261
(Address of principal executives office) (Zip Code)

(713) 570-3000
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

Number of shares of common stock outstanding at November 4, 2015: 333,771,307

Cautionary Language Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q ("Form 10-Q") contains forward-looking statements that are based on our management's expectations as of the filing date of this report with the SEC. Statements that are not historical facts are hereby identified as forward-looking statements. In addition, words such as "estimate," "anticipate," "project," "plan," "intend," "believe," "expect," "likely," "predicted," any variations of these words and similar expressions are intended to identify forward-looking statements. Such statements include plans, projections and estimates contained in "Part I—Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Part I—Item 3. Quantitative and Qualitative Disclosures About Market Risk" herein. Such forward-looking statements include (1) expectations regarding anticipated growth in the wireless communication industry, carriers' investments in their networks, new tenant additions, customer consolidation or ownership changes, or demand for our wireless infrastructure, (2) expectations regarding non-renewals of tenant leases (including the impact of Sprint decommissioning its iDEN network and the impact of our customers' decommissioning of the former Leap Wireless, MetroPCS and Clearwire networks), (3) availability and adequacy of cash flows and liquidity for, or plans regarding, future discretionary investments including capital expenditures, (4) potential benefits of our discretionary investments, (5) anticipated growth in our future revenues, margins, Adjusted EBITDA, and operating cash flows, (6) expectations regarding our capital structure and the credit markets, our availability and cost of capital, or our ability to service our debt and comply with debt covenants and the benefits of any future refinancings, (7) expectations related to remaining qualified as a real estate investment trust ("REIT") and the advantages, benefits or impact of, or opportunities created by, our REIT status, (8) the realization and utilization of our net operating loss carryforwards ("NOLs"), (9) expectations regarding the inclusion of portions of our small cells within our REIT, and (10) our dividend policy, including the timing, amount, growth or tax characterization of any dividends.

Such forward-looking statements are subject to certain risks, uncertainties and assumptions, including prevailing market conditions, risk factors described in "Item 1A. Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2014 ("2014 Form 10-K") and other factors. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those expected. As used herein, the term "including," and any variation of thereof, means "including without limitation." The use of the word "or" herein is not exclusive.

CROWN CASTLE INTERNATIONAL CORP. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-Unaudited
(Tabular dollars in thousands, except per share amounts)

1. General

The information contained in the following notes to the consolidated financial statements is condensed from that which would appear in the annual consolidated financial statements; accordingly, the consolidated financial statements included herein should be reviewed in conjunction with the consolidated financial statements for the fiscal year ended December 31, 2014, and related notes thereto, included in the 2014 Form 10-K filed by Crown Castle International Corp. ("CCIC") with the SEC. References to the "Company" include CCIC and its predecessor, as applicable, and their subsidiaries, unless otherwise indicated or the context indicates otherwise.

The Company owns, operates and leases shared wireless infrastructure, including: (1) towers, and to a lesser extent, (2) small cell networks, and (3) third party land interests. The Company's wireless infrastructure is geographically dispersed throughout the United States, including Puerto Rico ("U.S."). See note 3 for a discussion of the May 2015 sale of the Company's formerly 77.6% owned subsidiary that operated towers in Australia (referred to as "CCAL").

The Company's core business is providing access, including space or capacity, to its wireless infrastructure via long-term contracts in various forms, including licenses, subleases and lease agreements. The Company's wireless infrastructure can accommodate multiple tenants for antennas or other equipment necessary for the transmission of signals for wireless communication.

As part of the Company's effort to provide comprehensive wireless infrastructure solutions, it offers certain network services relating to its wireless infrastructure, consisting of (1) the following site development services relating to existing or new antenna installations on its wireless infrastructure: site acquisition, architectural and engineering, or zoning and permitting and (2) tenant equipment installation or subsequent augmentations (collectively, "installation services").

Effective January 1, 2014, the Company commenced operating as a REIT for U.S. federal income tax purposes. In addition, the Company has certain taxable REIT subsidiaries ("TRSs"). See note 8.

Approximately 55% of the Company's towers are leased or subleased or operated and managed under master leases, subleases, and other agreements with Sprint, T-Mobile, and AT&T. The Company has the option to purchase these towers at the end of their respective lease terms. The Company has no obligation to exercise such purchase options.

Basis of Presentation

The condensed consolidated financial statements included herein are unaudited; however, they include all adjustments (consisting only of normal recurring adjustments) which, in the opinion of management, are necessary to state fairly the consolidated financial position of the Company at September 30, 2015, and the consolidated results of operations and the consolidated cash flows for the nine months ended September 30, 2015 and 2014. The year-end condensed consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP. The results of operations for the interim periods presented are not necessarily indicative of the results to be expected for the full year.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies

The significant accounting policies used in the preparation of the Company's condensed consolidated financial statements are disclosed in the 2014 Form 10-K.

Recently Adopted Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board ("FASB") issued new guidance on the implementation and presentation of discontinued operations. The guidance requires that only disposals that represent a strategic shift that has (or will have) a major effect on the entity's results and operations qualify as discontinued operations. In addition, the new guidance expands the disclosure requirements for disposals that meet the definition of a discontinued operation and requires entities to disclose information about disposals of individually significant components that do not meet the definition of discontinued operations. The

CROWN CASTLE INTERNATIONAL CORP. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-Unaudited (Continued)
(Tabular dollars in thousands, except per share amounts)

new guidance was effective for the Company on January 1, 2015, and the Company has applied the new guidance for the sale of CCAL. See note 3.

Recent Accounting Pronouncements Not Yet Adopted

In April 2015, the FASB issued new guidance on the presentation of debt issuance costs. The guidance requires debt issuance costs be presented in the balance sheet as a direct deduction from the carrying amount of the related debt liability, consistent with debt discounts and premiums. The update requires retrospective application and the guidance is effective for the Company on January 1, 2016. The Company will adopt the guidance on January 1, 2016. As of September 30, 2015, net deferred financing costs were \$110.9 million and were recorded as a component of "long-term prepaid rent, deferred financing costs and other assets, net" on the Company's condensed consolidated balance sheet.

In May 2014, the FASB released updated guidance regarding the recognition of revenue from contracts with customers, exclusive of those contracts within lease accounting. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps: (1) identify the contracts with the customer; (2) identify the performance obligations in the contract; (3) determine the contract price; (4) allocate the transaction price to the performance obligations in the contract; and (5) recognize revenue when (or as) the entity satisfies a performance obligation. This guidance is effective for the Company on January 1, 2018, following the FASB's July 2015 decision to defer the effective date of the standard by one year. This guidance is required to be applied, at the Company's election, either (1) retrospectively to each prior reporting period presented, or (2) with the cumulative effect being recognized at the date of initial application. The Company is evaluating the guidance, including the impact on its consolidated financial statements.

In September 2015, the FASB issued new guidance which requires an acquirer to recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined. The update requires prospective application and the guidance is effective for the Company on January 1, 2016, with early adoption permitted. The Company is evaluating the guidance, including the impact on its consolidated financial statements.

In October 2015, the FASB issued new guidance on the presentation of deferred tax assets and liabilities. The guidance requires deferred tax assets and liabilities to be presented as non-current on the balance sheet. The update requires prospective application and the guidance is effective for the Company on January 1, 2017, with early adoption permitted. The Company is evaluating the guidance, including the impact on its consolidated financial statements.

3. Discontinued Operations

On May 14, 2015, the Company entered into a definitive agreement to sell CCAL to a consortium of investors led by Macquarie Infrastructure and Real Assets (collectively, "Buyer"). On May 28, 2015, the Company completed the sale. At closing, the Company received net proceeds of approximately \$1.1 billion after accounting for the Company's 77.6% ownership interest, repayment of intercompany debt owed to the Company by CCAL and estimated transaction fees and expenses, exclusive of the impact of foreign currency swaps related to the CCAL sale (see note 6).

As part of the sale of CCAL, in January 2016, the Company is entitled to receive an installment payment from the Buyer totaling approximately \$124 million, inclusive of the impact of the related foreign currency swap (see note 6). The Buyer's obligation related to the installment payment is unconditional and is substantiated by an irrevocable letter of credit. The installment payment is included within "other current assets" on the Company's condensed consolidated balance sheet.

During the second quarter 2015, the Company used net proceeds from the sale of CCAL to repay portions of outstanding borrowings under its 2012 Credit Facility.

The Company entered into foreign currency swaps to manage and reduce its foreign currency risk associated with the sale of CCAL. These swaps are not included in discontinued operations. See note 6.

CCAL has historically been a separate operating segment of the Company (see note 12). The sale of the Company's CCAL operating segment is treated as discontinued operations for all periods presented pursuant to ASU 2014-8, *Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*, which the Company adopted on January 1, 2015 (see note 2). The sale of CCAL represents a strategic shift of the Company to solely focus on U.S. operations. The gain from disposal of CCAL is included in discontinued operations on the condensed consolidated statement of operations. The tables below set forth

Preliminary Purchase Price Allocation

Current assets	\$	12,821
Property and equipment		432,106
Goodwill ^(a)		347,547
Other intangible assets, net		249,935
Current liabilities		(25,418)
Other non-current liabilities		(29,065)
Net assets acquired ^(b)	\$	<u>987,926</u>

(a) The preliminary purchase price allocation for the Sunesys Acquisition resulted in the recognition of goodwill based on the Company's expectation to leverage the Sunesys fiber footprint to support new small cell networks. The Sunesys fiber is complementary to the Company's existing fiber assets and is located where the Company expects to see wireless carrier network investments.

(b) Assets acquired in the Sunesys Acquisition are included in the Company's REIT and as such, no deferred taxes were recorded in connection with the Sunesys Acquisition.

- (a) See the 2014 Form 10-K, including note 7, for additional information regarding the maturity and principal amortization provisions and interest rates relating to the Company's indebtedness.
- (b) Represents the weighted-average stated interest rate.
- (c) During January and February 2015, the Company amended its 2012 Credit Facility agreement and increased the capacity of the 2012 Revolver to an aggregate revolving commitment of approximately \$2.2 billion. During August 2015, the Company utilized borrowings under the 2012 Revolver of \$835.0 million, along with cash on hand, to fund the Sunesys Acquisition. See note 4. As of September 30, 2015, the undrawn availability under the 2012 Revolver was \$1.2 billion.
- (d) If the respective series of such debt is not paid in full on or prior to an applicable date then Excess Cash Flow (as defined in the indenture) of the issuers of such notes will be used to repay principal of the applicable series, and additional interest (of an additional approximately 5% per annum) will accrue on the respective series. See the 2014 Form 10-K for additional information regarding these provisions.
- (e) During the second quarter of 2015, the Company repaid the portion of its Tranche B Term Loans that were due January 2019, which had an outstanding balance of \$564.1 million.
- (f) In May 2015, the Company issued \$1.0 billion aggregate principal amount of Senior Secured Tower Revenue Notes ("May 2015 Tower Revenue Notes"), which were issued by certain of its indirect subsidiaries pursuant to the existing indenture governing the 2010 Tower Revenue Notes and having similar terms and security as the 2010 Tower Revenue Notes. The 2015 Tower Revenue Notes consist of (1) \$300.0 million aggregate principal amount of 3.222% Notes with an expected life of seven years and a final maturity date of May 2042 and (2) \$700.0 million aggregate principal amount of 3.663% Notes with an expected life of ten years and a final maturity date of May 2045. The Company used the net proceeds received from the May 2015 Tower Revenue Notes offering (1) to repay \$250.0 million aggregate principal amount of August 2010 Tower Revenue Notes with an anticipated repayment date of August 2015, (2) to repay all of the previously outstanding WCP Securitized Notes, (3) to repay portions of outstanding borrowings under its 2012 Credit Facility, and (4) to pay related fees and expenses. Collectively, the 2010 Tower Revenue Notes and the May 2015 Tower Revenue Notes are referred to herein as the "Tower Revenue Notes."

(Tabular dollars in thousands, except per share amounts)

Contractual Maturities

The following are the scheduled contractual maturities of the total debt and other long-term obligations of the Company outstanding as of September 30, 2015. These maturities reflect contractual maturity dates and do not consider the principal payments that will commence following the anticipated repayment dates on the Tower Revenue Notes.

	Three Months Ending December 31,	Years Ending December 31,					Total Cash Obligations	Unamortized Adjustments, Net	Total Debt and Other Obligations Outstanding
	2015	2016	2017	2018	2019	Thereafter			
Scheduled contractual maturities	\$ 23,049	\$ 105,640	\$ 601,859	\$ 98,208	\$ 1,602,265	\$ 9,713,940	\$ 12,144,961	\$ (3,595)	\$ 12,141,366

Purchases and Redemptions of Long-Term Debt

The following is a summary of purchases and redemptions of long-term debt during the nine months ended September 30, 2015.

	Nine Months Ended September 30, 2015		
	Principal Amount	Cash Paid ^(a)	Gains (Losses) ^(b)
August 2010 Tower Revenue Notes	\$ 250,000	\$ 250,000	\$ (159)
WCP Securitized Notes	252,830	252,830	2,105
Tranche B Term Loans	564,137	564,137	(6,127)
Other	2,394	2,370	24
Total	\$ 1,069,361	\$ 1,069,337	\$ (4,157)

(a) Exclusive of accrued interest.

(b) Inclusive of \$4.2 million related to the net write off of deferred financing costs, premiums and discounts.

Interest Expense and Amortization of Deferred Financing Costs

The components of interest expense and amortization of deferred financing costs are as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Interest expense on debt obligations	\$ 121,287	\$ 121,450	\$ 366,388	\$ 370,899
Amortization of deferred financing costs	5,451	5,516	16,624	16,678
Amortization of adjustments on long-term debt	116	(892)	(1,146)	(2,743)
Amortization of interest rate swaps ^(a)	3,744	15,551	18,725	47,895
Other, net of capitalized interest	(721)	(338)	(1,809)	(508)
Total	\$ 129,877	\$ 141,287	\$ 398,782	\$ 432,221

(a) Amounts reclassified from "accumulated other comprehensive income (loss)."

CROWN CASTLE INTERNATIONAL CORP. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-Unaudited (Continued)
(Tabular dollars in thousands, except per share amounts)

6. Foreign Currency Swaps

During May 2015, the Company entered into two foreign currency swaps to manage and reduce its foreign currency risk related to its sale of CCAL (see note 3). The Company does not enter into foreign currency swaps for speculative or trading purposes. The foreign currency swaps were originally comprised of the following:

Item Swapped	Notional Amount	Forward Rate	Start Date	End Date	Pay Amount	Receive Amount	Fair Value at September 30, 2015
May 2015 cash receipt from sale of CCAL	A\$1,400,000	0.8072	May 2015	June 2015	Australian Dollar	US Dollar	N/A ^(a)
Installment payment from Buyer	A\$155,000	0.79835	May 2015	January 2016	Australian Dollar	US Dollar	\$15,524 ^(b)

(a) In conjunction with closing the CCAL sale on May 28, 2015, the Company cash settled the swap with a notional value of Australian dollar \$1.4 billion and recorded a gain on foreign currency swaps of \$54.5 million, which is included as a component of "other income (expense)" on the Company's condensed consolidated statement of operations.

(b) As of September 30, 2015, the Company marked-to-market the swap with a notional value of Australian dollar \$155 million and recorded (1) an asset within "other current assets" on the Company's condensed consolidated balance sheet and (2) a corresponding gain on foreign currency swaps, which is included as a component of "other income (expense)" on the Company's condensed consolidated statement of operations.

In total, the Company recorded a gain on foreign currency swaps of \$10.2 million and \$70.0 million for the three months and nine months ended September 30, 2015, respectively. This gain is included as a component of "other income (expense)" on the Company's condensed consolidated statement of operations.

7. Fair Value Disclosures

	Level in Fair Value Hierarchy	September 30, 2015		December 31, 2014	
		Carrying Amount	Fair Value	Carrying Amount	Fair Value
Assets:					
Cash and cash equivalents	1	\$ 184,116	\$ 184,116	\$ 151,312	\$ 151,312
Restricted cash, current and non-current	1	121,653	121,653	152,411	152,411
Foreign currency swaps	2	15,524	15,524	—	—
Liabilities:					
Long-term debt and other obligations	2	12,141,366	12,479,140	11,920,861	12,286,161

The fair value of cash and cash equivalents and restricted cash approximate the carrying value. The Company determines the fair value of its debt securities based on indicative, non-binding quotes from brokers. Quotes from brokers require judgment and are based on the brokers' interpretation of market information, including implied credit spreads for similar borrowings on recent trades or bid/ask prices or quotes from active markets if available. Foreign currency swaps are valued at settlement amounts using observable exchange rates and, if material, reflect an adjustment for the Company's and contract counterparty's credit risk. There were no changes since December 31, 2014 in the Company's valuation techniques used to measure fair values.

8. Income Taxes

Effective January 1, 2014, the Company commenced operating as a REIT for U.S. federal income tax purposes. As a REIT, the Company is generally entitled to a deduction for dividends that it pays and therefore is not subject to U.S. federal corporate income tax on its net taxable income that is currently distributed to its stockholders. The Company also may be subject to certain federal, state, local, and foreign taxes on its income and assets, including (1) alternative minimum taxes, (2) taxes on any undistributed income, (3) taxes related to the TRSs, (4) certain state, local, or foreign income taxes, (5) franchise taxes, (6) property taxes, and (7) transfer taxes. In addition, the Company could in certain circumstances be required to pay an excise or penalty tax, which could be significant in amount, in order to utilize one or more relief provisions under the Internal Revenue Code 1986, as amended ("Code") to maintain qualification for taxation as a REIT.

CROWN CASTLE INTERNATIONAL CORP. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-Unaudited (Continued)
(Tabular dollars in thousands, except per share amounts)

The Company's small cells other than Sunesys (see note 4) are currently included in one or more wholly owned TRSs. In August 2014, the Company received a favorable private letter ruling from the Internal Revenue Service ("IRS"), which provides that the real property portion of the Company's small cells and the related rents qualify as real property and rents from real property, respectively, under the rules governing REITs. The Company is evaluating the impact of this private letter ruling and, subject to board approval, expects to take appropriate action to include at least some part of the Company's small cells (other than Sunesys (see note 4)) as part of the REIT during 2015 or 2016. Once the Company has completed its evaluation and necessary actions to include small cells in the REIT, the Company expects to de-recognize its net deferred tax liabilities related to such part of the Company's small cells.

The Company's TRS assets and operations (along with any part of the Company's small cells that may remain in a TRS) will continue to be subject, as applicable, to federal and state corporate income taxes or to foreign taxes in the jurisdictions in which such assets and operations are located. The Company's foreign assets and operations (including its tower operations in Puerto Rico) most likely will be subject to foreign income taxes in the jurisdictions in which such assets and operations are located, regardless of whether they are included in a TRS or not. The Company will be subject to a federal corporate level tax rate (currently 35%) on the gain recognized from the sale of assets occurring within a specified period (generally 10 years) after the REIT conversion up to the amount of the built in gain that existed on January 1, 2014, which is based upon the fair market value of those assets in excess of the Company's tax basis on January 1, 2014. This gain can be offset by any remaining federal NOLs.

During the second quarter 2015, the Company recorded approximately \$21.2 million in current state income tax expense related to the sale of CCAL. In conjunction with the sale of CCAL, the Company expects to utilize approximately \$1.0 billion of its \$2.0 billion NOLs to fully offset the tax gain from the sale of CCAL. Further, as a result of the sale of CCAL, the Company expects that a significant portion of its common stock dividend distributions during 2015 will be characterized as capital gains distributions. See note 3.

For the nine months ended September 30, 2015 and 2014, the Company's effective tax rate differed from the federal statutory rate predominately due to the Company's REIT status, including the dividends paid deduction. The income tax provision for the nine months ended September 30, 2015 and 2014 primarily related to the TRSs.

CROWN CASTLE INTERNATIONAL CORP. AND SUBSIDIARIES

(Tabular dollars in thousands, except per share amounts)

9. Per Share Information

Basic net income (loss) attributable to CCIC common stockholders, per common share, excludes dilution and is computed by dividing net income (loss) attributable to CCIC common stockholders by the weighted-average number of common shares outstanding during the period. Diluted net income (loss) attributable to CCIC common stockholders, per common share is computed by dividing net income (loss) attributable to CCIC common stockholders by the weighted-average number of common shares outstanding during the period plus any potential dilutive common share equivalents, including shares issuable (1) upon the vesting of restricted stock awards and restricted stock units as determined under the treasury stock method and (2) upon conversion of the Company's Convertible Preferred Stock, as determined under the if-converted method.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014

Income (loss) from discontinued operations, basic	—	0.02	3.00	0.07
Net income (loss) attributable to CCIC common stockholders, basic	0.28	0.29	4.05	0.63
Income (loss) from continuing operations, diluted	0.28	0.26	1.05	0.55
Income (loss) from discontinued operations, diluted	—	0.03	2.99	0.08
Net income (loss) attributable to CCIC common stockholders, diluted	0.28	0.29	4.04	0.63

During the nine months ended September 30, 2015, the Company granted 1.0 million restricted stock units. For the nine months ended September 30, 2015 and 2014, 12.4 million common share equivalents and 12.3 million common share equivalents, respectively, related to the Convertible Preferred Stock were excluded from the dilutive common shares because the impact of such conversion would be anti-dilutive, based on the Company's common stock price as of the end of the respective periods.

10. Commitments and Contingencies

The Company is involved in various claims, lawsuits or proceedings arising in the ordinary course of business. While there are uncertainties inherent in the ultimate outcome of such matters and it is impossible to presently determine the ultimate costs or losses that may be incurred, if any, management believes the resolution of such uncertainties and the incurrence of such costs should not have a material adverse effect on the Company's consolidated financial position or results of operations. Additionally, the Company and certain of its subsidiaries are contingently liable for commitments or performance guarantees arising in the ordinary course of business, including certain letters of credit or surety bonds. In addition, the Company has the option to purchase approximately 55% of the Company's towers at the end of their respective lease terms. The Company has no obligation to exercise such purchase options.

CROWN CASTLE INTERNATIONAL CORP. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-Unaudited (Continued)
(Tabular dollars in thousands, except per share amounts)

11. Equity

Declaration and Payment of Dividends

During the nine months ended September 30, 2015, the following dividends were declared or paid:

Equity Type	Declaration Date	Record Date	Payment Date	Dividends Per Share	Aggregate Payment Amount (In millions)
Common Stock	February 12, 2015	March 20, 2015	March 31, 2015	\$ 0.82	\$ 274.7 ^(a)
Common Stock	May 29, 2015	June 19, 2015	June 30, 2015	\$ 0.82	\$ 274.5 ^(a)
Common Stock	July 30, 2015	September 18, 2015	September 30, 2015	\$ 0.82	\$ 274.3 ^(a)
Convertible Preferred Stock	December 22, 2014	January 15, 2015	February 2, 2015	\$ 1.1250	\$ 11.0
Convertible Preferred Stock	March 27, 2015	April 15, 2015	May 1, 2015	\$ 1.1250	\$ 11.0
Convertible Preferred Stock	June 21, 2015	July 15, 2015	August 3, 2015	\$ 1.1250	\$ 11.0
Convertible Preferred Stock	September 23, 2015	October 15, 2015	November 2, 2015	\$ 1.1250	\$ 11.0 ^(b)

(a) Inclusive of dividends accrued for holders of unvested restricted stock units.

(b) Represents amount paid on November 2, 2015 based on holders of record on October 15, 2015.

See note 14.

Purchases of the Company's Common Stock

For the nine months ended September 30, 2015, the Company purchased 0.3 million shares of its common stock utilizing \$29.6 million in cash.

"At the Market" Stock Offering Program

In August 2015, the Company established an "at the market" stock offering program ("ATM Program") through which it may, from time to time, issue and sell shares of its common stock having an aggregate gross sales price of up to \$500.0 million to or through sales agents. Sales, if any, under the ATM Program may be made by means of ordinary brokers' transactions on the New York Stock Exchange or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or, subject to specific instructions of the Company, at negotiated prices. The Company intends to use the net proceeds from any sales under the ATM Program for general corporate purposes, which may include the funding of future acquisitions or investments and the repayment or repurchase of any outstanding indebtedness. As of September 30, 2015, no shares of common stock were sold under the ATM Program.

12. Operating Segments

The Company has determined that presently, following the sale of CCAL, it has one reportable operating segment, CCUSA, consisting of its U.S. operations, which is consistent with its current operational and financial reporting structure. Financial results for the Company are currently reported to the Company's management team and board of directors in this manner.

Prior to its sale in May 2015, CCAL, the Company's previously 77.6% owned subsidiary that owned and operated towers in Australia, was a reportable segment. As a result of the sale of CCAL, the Company's segment data has been reclassified for all periods presented to include CCAL on a discontinued operations basis.

The Company will continue its evaluation of its operating segments following the disposition of CCAL and its change in strategic focus to its U.S. business. To the extent the Company makes changes to its financial reporting or organizational structure, including the integration of the Sunesys Acquisition, the Company will evaluate any impact such changes may have to its segment reporting.

13. Supplemental Cash Flow Information

	Nine Months Ended September 30,	
	2015	2014
Supplemental disclosure of cash flow information:		
Interest paid	\$ 364,147	\$ 368,437
Income taxes paid	23,865	15,353
Supplemental disclosure of non-cash investing and financing activities:		
Increase (decrease) in accounts payable for purchases of property and equipment	(5,399)	2,827
Purchase of property and equipment under capital leases and installment purchases	41,331	27,772
Installment payment receivable for sale of CCAL (see note 3)	117,384	—

14. Subsequent Events

Common Stock Dividend

On October 19, 2015, the Company declared a quarterly common stock cash dividend of \$0.885 per share, which was approved by the Company's board of directors. The common stock dividend will be paid on December 31, 2015, to common stock holders of record as of December 18, 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the response to Part I, Item 1 of this report and the consolidated financial statements of the Company including the related notes and "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" ("MD&A") included in our 2014 Form 10-K. Capitalized terms used but not defined in this Item have the same meaning given to them in our 2014 Form 10-K. Unless this Form 10-Q indicates otherwise or the context otherwise requires, the terms "we," "our," "our company," "the company," or "us" as used in this Form 10-Q refer to Crown Castle International Corp., and its predecessor, as applicable, and their subsidiaries.

General Overview

Overview

We own, operate and lease shared wireless infrastructure that are geographically dispersed throughout the U.S. with a significant presence in the top 100 BTAs. Site rental revenues represented 83% of our third quarter 2015 consolidated net revenues. The vast majority of our site rental revenues is of a recurring nature and has been contracted for in a prior year.

Strategy

Our strategy is to create long-term stockholder value via a combination of (1) growing cash flows generated from our portfolio of wireless infrastructure, (2) returning a meaningful portion of our cash provided by operating activities to our stockholders in the form of dividends and (3) investing capital efficiently to grow long-term dividends per share. We measure our efforts to create "long-term stockholder value" by the combined payment of dividends to stockholders and growth in our per share results. The key elements of our strategy are to:

- *Grow cash flows from our wireless infrastructure.* We seek to maximize the site rental cash flows derived from our wireless infrastructure by adding tenants on our wireless infrastructure through long-term leases as our customers deploy and improve their wireless networks. We seek to maximize new tenant additions or modifications of existing tenant installations (collectively, "new tenant additions") through our focus on customer service and deployment speed. Due to the relatively fixed nature of the costs to operate our wireless infrastructure (which tend to increase at approximately the rate of inflation), we expect increases in our site rental cash flows from new tenant additions and the related subsequent impact from contracted escalations to result in growth in our operating cash flows. We believe there is considerable additional future demand for our existing wireless infrastructure based on their location and the anticipated growth in the wireless communication services industry. Substantially all of our wireless infrastructure can accommodate additional tenancy, either as currently constructed or with appropriate modifications to the structure, which we expect to have high incremental returns.
- *Return cash provided by operating activities to stockholders in the form of dividends.* We believe that distributing a meaningful portion of our cash provided by operating activities appropriately provides stockholders with increased certainty for a portion of expected long-term stockholder value while still retaining sufficient flexibility to invest in our business and deliver growth. We believe this decision reflects the translation of the high-quality, long-term contractual cash flows of our business into stable capital returns to stockholders.
- *Invest capital efficiently to grow long-term dividends per share.* We seek to invest our capital available, including the net cash provided by our operating activities and external financing sources, in a manner that will increase long-term stockholder value on a risk-adjusted basis. Our historical investments have included the following (in no particular order):
 - purchase shares of our common stock from time to time;
 - acquire or construct wireless infrastructure;
 - acquire land interests under towers;
 - make improvements and structural enhancements to our existing wireless infrastructure; or
 - purchase, repay or redeem our debt.

Our strategy to create long-term stockholder value is based on our belief that additional demand for our wireless infrastructure will be created by the expected continued growth in the wireless communication services industry, which is predominately driven by the demand for wireless data services by consumers. We believe that such demand for our wireless infrastructure will continue, will result in growth of our cash flows due to new tenant additions on our existing wireless infrastructure, and will create other growth opportunities for us, such as demand for new wireless infrastructure.

The following are certain highlights of our business fundamentals and results as of and for the nine months ended September 30, 2015.

- Effective January 1, 2014, we commenced operating as a REIT for U.S. federal income tax purposes.
 - As a REIT, we are generally entitled to a deduction for dividends that we pay and therefore are not subject to U.S. federal corporate income tax on our taxable income that is distributed to our stockholders.
 - To qualify and be taxed as a REIT, we will generally be required to distribute at least 90% of our REIT taxable income, after the utilization of our NOLs (determined without regard to the dividends paid deduction and excluding net capital gain), each year to our stockholders.
 - See note 8 to our condensed consolidated financial statements for further discussion of our REIT status.
- Potential growth resulting from wireless network expansion and new entrants
 - We expect wireless carriers will continue their focus on improving network quality and expanding capacity by adding additional antennas or other equipment on our wireless infrastructure.
 - We expect existing and potential new customer demand for our wireless infrastructure will result from (1) new technologies, (2) increased usage of wireless data applications (including mobile entertainment, mobile internet usage, and machine-to-machine applications), (3) adoption of other emerging and embedded wireless devices (including laptops, tablets, and other devices), (4) increasing smartphone penetration, (5) wireless carrier focus on expanding quality and capacity, or (6) the availability of additional spectrum.
 - Substantially all of our wireless infrastructure can accommodate additional tenancy, either as currently constructed or with appropriate modifications to the structure.
 - U.S. wireless carriers continue to invest in their networks.
 - Our site rental revenues grew \$89.9 million, or 4%, from the nine months ended September 30, 2014 to the nine months ended September 30, 2015. This growth was predominately comprised of the following, exclusive of the impact of straight-line accounting:
 - An approximate 6% increase from new leasing activity.
 - An approximate 3% increase from cash escalations.
 - An approximate 4% decrease in site rental revenues caused by the non-renewal of tenant leases.
- Site rental revenues under long-term tenant leases with contractual escalations
 - Initial terms of five to 15 years with multiple renewal periods at the option of the tenant of five to ten years each.
 - Weighted-average remaining term of approximately seven years, exclusive of renewals at the tenant's option, currently representing approximately \$20 billion of expected future cash inflows.
- Revenues predominately from large wireless carriers
 - Approximately 91% of our consolidated site rental revenues were derived from AT&T, Sprint, T-Mobile, and Verizon Wireless. See also "Item 2. MD&A—General Overview—Outlook Highlights" presented below.
- Majority of land interests under our towers under long-term control
 - Nearly 90% and 75% of our site rental gross margin is derived from towers that reside on land that we own or control for greater than ten and 20 years, respectively. The aforementioned amounts include towers that reside on land interests that are owned, including fee interests and perpetual easements, which represent approximately one-third of our site rental gross margin.
- Relatively fixed wireless infrastructure operating costs
 - Our wireless infrastructure operating costs tend to increase at approximately the rate of inflation and are not typically influenced by new tenant additions.
- Minimal sustaining capital expenditure requirements
 - Sustaining capital expenditures represented approximately 3% of net revenues.
- Debt portfolio with long-dated maturities extended over multiple years, with the majority of such debt having a fixed rate (see "Item 3. Quantitative and Qualitative Disclosures About Market Risk" for a further discussion of our debt)
 - 68% of our debt is fixed rate.
 - Our debt service coverage and leverage ratios were comfortably within their respective financial maintenance covenants.
 - During January and February 2015, we amended our 2012 Credit Facility agreement and increased the capacity of the 2012 Revolver to an aggregate revolving commitment of approximately \$2.2 billion.
 - During the second quarter 2015, we (1) issued \$1.0 billion aggregate principal amount of the May 2015 Tower Revenue Notes, (2) repaid \$250.0 million of August 2010 Tower Revenue Notes with an anticipated repayment date of August 2015, (3) repaid all of the previously outstanding WCP Securitized Notes, and (4) repaid a portion of our outstanding borrowings under our 2012 Credit Facility. See note 5 to our condensed consolidated financial statements.

- Significant cash flows from operations
 - Net cash provided by operating activities was \$1.3 billion.
 - We expect to grow our core business of providing access to our wireless infrastructure as a result of contractual escalators and future anticipated demand for our wireless infrastructure.
- Returning cash flows provided by operations to stockholders in the form of dividends
 - During each of the first three quarters of 2015, we paid common stock cash dividends totaling approximately \$821.1 million. See "Item 2. MD&A—General Overview—Common Stock Dividend" below for a discussion of the increase to our quarterly cash dividend in the fourth quarter of 2015.
- Investing capital efficiently to grow long-term dividends per share
 - Discretionary capital expenditures were \$582.8 million, including wireless infrastructure improvements in order to support additional site rentals, construction of wireless infrastructure and land purchases.

Common Stock Dividend

During each of the first three quarters of 2015, we paid a quarterly common stock cash dividend of \$0.82 per share, totaling approximately \$821.1 million. In October 2015, we increased our quarterly cash dividend, beginning in the fourth quarter of 2015, from an annual amount of \$3.28 per share to an annual amount of \$3.54 per share. As such, we declared a quarterly cash dividend of \$0.885 per share in October 2015, which represented an increase of 8% from the quarterly cash dividend declared during each of the first three quarters of 2015. We currently expect such dividends to result in aggregate cash payments of approximately \$1.2 billion during the next 12 months. Over time, we expect to increase our dividend per share generally commensurate with our realized growth in organic cash flows. Future dividends are subject to the approval of our board of directors. See notes 8, 11 and 14 to our condensed consolidated financial statements.

Sale of CCAL

In May 2015, we entered into a definitive agreement to sell our 77.6% owned Australian subsidiary, CCAL, to a consortium of investors led by Macquarie Infrastructure and Real Assets. On May 28, 2015, we completed the sale of CCAL. At closing, we received net proceeds of approximately \$1.1 billion after accounting for our ownership interest, repayment of intercompany debt owed to us by CCAL and estimated transaction fees and expenses, exclusive of the impact of foreign currency swaps related to the CCAL sale.

As part of the sale of CCAL, in January 2016, we are entitled to receive an installment payment of \$124 million from the Buyer, inclusive of the impact of the related foreign currency swap (see note 6 to our condensed consolidated financial statements). During the second quarter 2015, we used net proceeds from the sale of CCAL to repay portions of outstanding borrowings under our 2012 Credit Facility.

We entered into foreign currency swaps to manage and reduce our foreign currency risk associated with the sale of CCAL. These swaps are not included in discontinued operations. See note 6 to our condensed consolidated financial statements.

Sunesys Acquisition

In April 2015, we entered into a definitive agreement to acquire Sunesys for approximately \$1.0 billion in cash, subject to certain limited adjustments. On August 4, 2015, we closed the Sunesys Acquisition utilizing \$835.0 million in 2012 Revolver borrowings and cash on hand. Prior to the closing, Sunesys was a wholly owned subsidiary of Quanta Services, Inc., and a fiber services provider that owned or had rights to nearly 10,000 miles of fiber in major metropolitan markets across the U.S., including Los Angeles, Philadelphia, Chicago, Atlanta, Silicon Valley, and northern New Jersey. Approximately 60% of Sunesys' fiber miles were located in the top 10 basic trading areas. See note 4 to our condensed consolidated financial statements.

Outlook Highlights

The following are certain highlights of our full year 2015 and 2016 outlook that impact our business fundamentals described above.

- We expect that our full year 2015 site rental revenue growth will be benefited by similar levels of tenant additions as in 2014, as large U.S. wireless carriers upgrade and enhance their networks, partially offset by an increase in non-renewals of tenant leases. During 2015, we expect non-renewals of tenant leases to primarily result from Sprint's decommissioning of its legacy Nextel iDEN network.
- We expect that our full year 2016 site rental revenue growth will be benefited by similar levels of tenant additions as in 2015, as large U.S. wireless carriers upgrade and enhance their networks, partially offset by non-renewals of tenant leases primarily resulting from anticipated non-renewals of \$80 million to \$90 million from our customers' decommissioning of the former Leap Wireless, MetroPCS and Clearwire networks, at least in part.

- We expect sustaining capital expenditures to be approximately 3% of net revenues for full year 2015 due to expansion of our office facilities. We expect sustaining capital expenditures to be approximately 2% of net revenues for full year 2016.

Consolidated Results of Operations

The following discussion of our results of operations should be read in conjunction with our condensed consolidated financial statements and our 2014 Form 10-K.

The following discussion of our results of operations is based on our condensed consolidated financial statements prepared in accordance with GAAP, which requires us to make estimates and judgments that affect the reported amounts (see "Item 2. MD&A—Accounting and Reporting Matters—Critical Accounting Policies and Estimates" and note 2 to our consolidated financial statements on our 2014 Form 10-K).

See "Item 2. MD&A—Accounting and Reporting Matters—Non-GAAP Financial Measures" for a discussion of our use of Adjusted EBITDA, including its definition and a reconciliation to net income (loss).

Comparison of Consolidated Results

The following information is derived from our historical consolidated statements of operations for the periods indicated.

	Three Months Ended September 30,		Percent Change ^(b)

* Percentage is not meaningful

(a) Exclusive of depreciation, amortization and accretion shown separately.

(b) Inclusive of the impact of foreign exchange rate fluctuations.

Comparison of Operating Results

We have determined that presently, following the sale of CCAL, we have one reportable operating segment, CCUSA, consisting of our U.S. operations, which is consistent with our current operational and financial reporting structure. Our financial results are currently reported to management and the board of directors in this manner.

Prior to its sale in May 2015, CCAL, our previously 77.6% owned subsidiary that owned and operated towers in Australia, was a reportable segment. As a result of the sale of CCAL, our historical financial statements have been reclassified for all periods presented to include CCAL on a discontinued operations basis. See also "Item 2. MD&A—General Overview—Sale of CCAL".

We will continue our evaluation of our operating segments following the disposition of CCAL, and our change in strategic focus to our U.S. business. To the extent we make changes to our financial reporting or organizational structure, including the integration of the Sunesys Acquisition, we will evaluate any impact such changes may have to our segment reporting.

Third Quarter 2015 and 2014

Net revenues for the third quarter of 2015 increased by \$25.2 million, or 3%, from the same period in the prior year. This increase in net revenues resulted from an increase from the same period in the prior year in site rental revenues of \$47.0 million, or 7%, offset by a decrease in network services and other revenues of \$21.8 million, or 12%.

The increase in site rental revenues was impacted by the following items, inclusive of straight-line accounting, in no particular order: new tenant additions across our entire portfolio, renewals or extensions of tenant leases, escalations, acquisitions, construction of wireless infrastructure, and non-renewals of tenant leases. Tenant additions were influenced by the ongoing efforts of large U.S. wireless carriers to upgrade and enhance their networks. See "Item 2. MD&A—Business Fundamentals and Results."

Site rental gross margins for the third quarter of 2015 increased by \$30.6 million, or 6%, from the same period in the prior year. The increase in the site rental gross margins was related to the previously mentioned 7% increase in site rental revenues.

Network services and other gross margin decreased by \$6.8 million, or 9%, from the same period in the prior year. The decrease in our gross margin from our network services and other revenues is a reflection of (1) the volume of activity from carrier network enhancements such as LTE upgrades and (2) the volume and mix of network services and other work. Our network services and other offerings are of a variable nature as these revenues are not under long-term contracts.

General and administrative expenses for the third quarter of 2015 increased by \$11.5 million, or approximately 18%, from the same period in the prior year. General and administrative expenses were 8% of net revenues for the third quarter of 2015 and 7% of net revenues for the third quarter of 2014. General and administrative expenses are inclusive of stock-based compensation charges. The increase in general and administrative expenses in nominal dollars was related to the expansion in the size of our wireless infrastructure portfolio primarily due to our recent acquisitions and small cell network activities. Typically, our general and administrative expenses do not significantly increase as a result of new tenant additions on our existing wireless infrastructure.

Adjusted EBITDA for the third quarter of 2015 increased by \$15.6 million, or 3%, from the same period in the prior year. Adjusted EBITDA was positively impacted by the growth in our site rental activities, partially offset by the aforementioned increase in general and administrative expenses and decrease in network services and other gross margin.

Depreciation, amortization and accretion for the third quarter of 2015 increased by \$14.5 million, or 6%, from the same period in the prior year. This increase predominately resulted from a corresponding increase in our gross property and equipment due to capital expenditures and acquisitions.

Interest expense and amortization of deferred financing costs decreased \$11.4 million, or 8%, from the third quarter of 2014 to the third quarter of 2015 primarily as a result of an \$11.8 million decrease in the amortization of previously settled interest rate swaps. For a further discussion of our debt and interest rate swaps, see note 5 to our condensed consolidated financial statements and see notes 7 and 8 to our consolidated financial statements in our 2014 Form 10-K.

For the third quarter of 2015 and 2014, the effective tax rate differed from the federal statutory rate predominately due to our REIT status including the dividends paid deduction. See note 8 to our condensed consolidated financial statements and also note 10 to our consolidated financial statements in our 2014 Form 10-K.

Net income (loss) attributable to CCIC stockholders for the third quarter of 2015 was income of \$103.8 million compared to income of \$106.9 million for the third quarter of 2014.

First Nine Months 2015 and 2014

Net revenues for the first nine months of 2015 increased by \$105.1 million, or 4%, from the same period in the prior year. This increase in net revenues resulted from an increase from the same period in the prior year in (1) site rental revenues of \$89.9 million, or 4%, and (2) network services and other revenues of \$15.2 million, or 3%. The increase in site rental revenues was impacted by the following items, inclusive of straight-line accounting, in no particular order: new tenant additions across our entire portfolio, renewals or extensions of tenant leases, escalations, acquisitions, construction of wireless infrastructure, and non-renewals of tenant leases. Tenant additions were influenced by the ongoing efforts of large U.S. wireless carriers to upgrade and enhance their networks. See "Item 2. MD&A—Business Fundamentals and Results."

Site rental gross margins for the first nine months of 2015 increased by \$49.9 million, or 3%, from the same period in the prior year. The increase in the site rental gross margins was related to the previously mentioned 4% increase in site rental revenues.

Network services and other gross margin increased by \$27.6 million, or 14%, from the same period in the prior year. The increase in our gross margin from our network services and other revenues is a reflection of (1) the volume of activity from carrier

network enhancements such as LTE upgrades, (2) the volume and mix of network services work, and (3) the expansion in the size of our wireless infrastructure portfolio due to the T-Mobile Acquisition and AT&T Acquisition. Our network services business is of a variable nature as these revenues are not under long-term contracts.

General and administrative expenses for the first nine months of 2015 increased by \$36.7 million, or approximately 20%, from the same period in the prior year. General and administrative expenses were 8% of net revenues for the first nine months of 2015 and 7% of net revenues for the first nine months of 2014. General and administrative expenses are inclusive of stock-based compensation charges. The increase in general and administrative expenses in nominal dollars was related to (1) the expansion in the size of our wireless infrastructure portfolio primarily due to our recent acquisitions and small cell network activities and (2) growth in network services. Typically, our general and administrative expenses do not significantly increase as a result of new tenant additions on our existing wireless infrastructure.

Adjusted EBITDA for the first nine months of 2015 increased by \$47.7 million, or 3%, from the same period in the prior year. Adjusted EBITDA was positively impacted by the growth in our site rental and network services activities, partially offset by the aforementioned increase in general and administrative expenses.

Depreciation, amortization and accretion for the first nine months of 2015 increased by \$27.7 million, or 4%, from the same period in the prior year. This increase predominately resulted from a corresponding increase in our gross property and equipment due to capital expenditures and acquisitions.

Interest expense and amortization of deferred financing costs decreased \$33.4 million, or 8%, from the first nine months of 2014 to the first nine months of 2015, as a result of (1) a \$29.2 million decrease in the amortization of interest rate swaps and (2) our refinancing activities. During May 2015, we issued an aggregate principal amount of \$1.0 billion in May 2015 Tower Revenue Notes, which, together with proceeds received from our sale of CCAL, provided us with funding to (1) repay \$250.0 million aggregate principal amount of the August 2010 Tower Revenue Notes with an anticipated repayment date of August 2015, (2) repay all of the previously outstanding WCP Securitized Notes, (3) repay portions of outstanding borrowings under our 2012 Credit Facility, and (4) pay related fees and expenses. During the first nine months of 2014, we issued \$850.0 million of 4.875% Senior Notes, which provided us with funding to (1) repay \$300.0 million of the January 2010 Tower Revenue Notes and (2) redeem all of the previously outstanding 7.125% Senior Notes. As a result of the repayment and redemption of certain of our debt during the first nine months of 2015 and the first nine months of 2014, we incurred losses of \$4.2 million and \$44.6 million, respectively. For a further discussion of our debt, see note 5 to our condensed consolidated financial statements and see note 7 to our consolidated financial statements in the 2014 Form 10-K.

The decrease in acquisition and integration expenses for the first nine months of 2015 compared to the first nine months of 2014 was a result of expenses recorded during the first nine months of 2014 related to our acquisitions in 2012 and 2013.

Other income (expense) for the first nine months of 2015 was income of \$58.5 million, compared to expense of \$9.4 million for the first nine months of 2014. This change was predominately a result of gains recorded during the first nine months of 2015 on foreign currency swaps that we entered into to manage and reduce our foreign currency risk related to our May 2015 sale of CCAL. See note 6 to our condensed consolidated financial statements.

For the first nine months of 2015 and 2014, the effective tax rate differs from the federal statutory rate predominately due to our REIT status, including the dividends paid deduction. See note 8 to our condensed consolidated financial statements and also note 10 to our consolidated financial statements in our 2014 Form 10-K.

Income from discontinued operations, net of tax, decreased from the first nine months of 2014 to the first nine months of 2015 due to the sale of CCAL occurring mid-period on May 28, 2015. In addition, during the first nine months of 2015, we recorded a gain on the sale of discontinued operations, net of tax, of \$1.0 billion.

Net income (loss) attributable to CCIC stockholders for the first nine months of 2015 was income of \$1.4 billion, compared to income of \$242.4 million for the first nine months of 2014. The increase in net income attributable to CCIC stockholders was primarily due to the gain recorded on the sale of CCAL.

Liquidity and Capital Resources

Overview

General. Our core business generates revenues under long-term leases (see "Item 2. MD&A—General Overview—Overview") predominately from the largest U.S. wireless carriers. Our strategy is to create long-term stockholder value via a combination of (1) growing cash flows generated from our portfolio of wireless infrastructure, (2) returning a meaningful portion of our cash provided by operating activities to our stockholders in the form of dividends and (3) investing capital efficiently to grow long-term dividends per share. We measure our efforts to create "long-term stockholder value" by the combined payment of dividends to stockholders and growth in our per share results.

We have and expect to continue to engage in discretionary investments that we believe will maximize long-term stockholder value. Our historical discretionary investments include (in no particular order): purchasing our common stock, acquiring or constructing wireless infrastructure, acquiring land interests under towers, improving and structurally enhancing our existing wireless infrastructure, and purchasing, repaying, or redeeming our debt. Based on the growth in small cell activity, we expect to increase our capital spending on the construction of small cell networks. We seek to fund our discretionary investments with both net cash provided by operating activities and, cash available from financing capacity, such as the use of our undrawn availability from the 2012 Revolver, debt financings and issuances of equity or equity related securities.

We seek to maintain a capital structure that we believe drives long-term stockholder value and optimizes our weighted-average cost of capital. We target a leverage ratio of approximately four to five times Adjusted EBITDA and interest coverage of approximately three times Adjusted EBITDA, subject to various factors such as the availability and cost of capital and the potential long-term return on our discretionary investments. We may choose to increase or decrease our leverage or coverage from these targets for various periods of time.

Effective January 1, 2014, we commenced operating as a REIT for U.S. federal income tax purposes. We expect to continue to pay minimal cash income taxes as a result of our REIT status and our NOLs. See note 8 to our condensed consolidated financial statements and our 2014 Form 10-K.

Liquidity Position. The following is a summary of our capitalization and liquidity position. See "Item 3. Quantitative and Qualitative Disclosures About Market Risk" and note 5 to our condensed consolidated financial statements for additional information regarding our debt.

	<u>September 30, 2015</u>	
	(In thousands of dollars)	
Cash and cash equivalents ^(a)	\$	184,116
Undrawn 2012 Revolver availability ^(b)		1,215,000
Total debt and other long-term obligations		12,141,366
Total equity		7,240,303

(a) Exclusive of restricted cash.

(b) Availability at any point in time is subject to certain restrictions based on the maintenance of financial covenants contained in the 2012 Credit Facility. See our 2014 Form 10-K.

Over the next 12 months:

- Our liquidity sources may include (1) cash on hand, (2) net cash provided by operating activities (net of cash interest payments), (3) undrawn availability from our 2012 Revolver, and (4) issuances of equity pursuant to our ATM Program. Our liquidity uses over the next 12 months are expected to include (1) debt service obligations of \$102.2 million (principal payments), (2) common stock dividend payments expected to be \$3.54 per share, or an aggregate of approximately \$1.2 billion, subject to future approval by our board of directors (see "Item 2. MD&A—Common Stock Dividend"), (3) Convertible Preferred Stock dividend payments of approximately \$45 million, and (4) sustaining and discretionary capital expenditures (expect to be equal to or greater than current levels). During the next 12 months, we expect that our liquidity sources should be sufficient to cover our expected uses. As CCIC and CCOC are holding companies, our cash flow from operations is generated by our operating subsidiaries.
- We have no scheduled contractual debt maturities other than principal payments on amortizing debt. See "Item 3. Quantitative and Qualitative Disclosures About Market Risk" for a tabular presentation as of September 30, 2015 of our scheduled contractual debt maturities and a discussion of anticipated repayment dates.

Summary Cash Flow Information

	Nine Months Ended September 30,		
	2015	2014	Change
(In thousands of dollars)			
Net increase (decrease) in cash and cash equivalents provided by (used for) from continuing operations:			
Operating activities	\$ 1,290,876	\$ 1,150,926	\$ 139,950
Investing activities	(1,688,645)	(670,529)	(1,018,116)
Financing activities	(699,989)	(479,033)	(220,956)
Net increase (decrease) in cash and cash equivalents from continuing operations	(1,097,758)	1,364	(1,099,122)
Net increase (decrease) in cash and cash equivalents from discontinued operations	1,107,936	21,150	1,086,786
Effect of exchange rate changes on cash	(1,682)	(7,358)	5,676
Net increase (decrease) in cash and cash equivalents	<u>\$ 8,496</u>	<u>\$ 15,156</u>	<u>\$ (6,660)</u>

Operating Activities

The increase in net cash provided by operating activities from continuing operations for the first nine months of 2015 of \$140.0 million, or 12%, from the first nine months of 2014, was due primarily to (1) a net benefit from changes in working capital, and (2) growth in our site rental and network services offerings. Changes in working capital (including changes in accounts receivable, deferred site rental receivables, deferred rental revenues, prepaid ground leases, restricted cash, and accrued interest) can have a significant impact on net cash provided by operating activities, largely due to the timing of prepayments and receipts. We expect to grow our net cash provided by operating activities in the future (exclusive of movements in working capital) if we realize expected growth in our core business.

Investing Activities

Capital Expenditures

Our capital expenditures include the following:

- Discretionary capital expenditures made with respect to activities which we believe exhibit sufficient potential to enhance long-term stockholder value. They consist of wireless infrastructure construction and improvements and, to a lesser extent, purchases of land assets under towers as we seek to manage our interests in the land beneath our towers. Improvements to existing wireless infrastructure to accommodate new leasing typically vary based on, among other factors: (1) the type of wireless infrastructure, (2) the scope, volume, and mix of work performed on the wireless infrastructure, (3) existing capacity prior to installation, or (4) changes in structural engineering regulations and standards. Our decisions regarding capital expenditures are influenced by the availability and cost of capital and expected returns on alternative uses of cash, such as payments of dividends and investments.
- Sustaining capital expenditures consist of (1) corporate-related capital improvements and (2) maintenance on our wireless infrastructure assets that enable our customers' ongoing quiet enjoyment of the wireless infrastructure.

Capital expenditures for the nine months ended September 30, 2015 and 2014 were as follows:

	Nine Months Ended September 30,		
	2015	2014	Change
(In thousands of dollars)			
Discretionary:			
Purchases of land interests	\$ 67,786	\$ 54,889	\$ 12,897
Wireless infrastructure construction and improvements	515,008	401,441	113,567
Sustaining	75,446	42,630	32,816
Total	<u>\$ 658,240</u>	<u>\$ 498,960</u>	<u>\$ 159,280</u>

Discretionary capital expenditures increased from the first nine months of 2014 to 2015 primarily as a result of (1) improvements to existing towers to accommodate new leasing and (2) the construction of small cell networks. We expect to invest in discretionary capital expenditures over the next 12 months at levels equal to or greater than current levels and we expect increases in the construction of small cell networks.

Our sustaining capital expenditures have historically been less than 2% of net revenues annually and are approximately 3% of net revenues in 2015 due to expansion of our office facilities. We expect sustaining capital expenditures of approximately 2% of net revenues in 2016.

Sale of CCAL. See note 3 to our condensed consolidated financial statements for a discussion of our May 2015 sale of CCAL, our previously 77.6% owned Australian subsidiary.

Foreign Currency Swaps. During May 2015, in conjunction with our sale of CCAL, we entered into foreign currency swaps to manage and reduce our foreign currency risk associated with the sale of CCAL. See note 6 to our condensed consolidated financial statements.

Acquisitions. See note 4 to our condensed consolidated financial statements for a discussion of the Sunesys Acquisition, which closed in August 2015.

Financing Activities

We seek to allocate cash generated by our operations in a manner that will enhance long-term stockholder value, which may include various financing activities such as (in no particular order) paying dividends on our common stock (currently expected to total an aggregate of approximately \$1.2 billion during the next 12 months), paying dividends on our Convertible Preferred Stock (expected to be approximately \$45 million during the next 12 months), purchasing our common stock, or purchasing, repaying, or redeeming our debt.

Credit Facility. The proceeds of our 2012 Revolver may be used for general corporate purposes, which may include the financing of capital expenditures, acquisitions, such as the Sunesys Acquisition, and purchases of our common stock. During January and February 2015, we increased the aggregate revolving commitment under the 2012 Revolver by \$730 million to approximately \$2.2 billion. As of November 4, 2015, there was \$1.0 billion outstanding and \$1.2 billion in undrawn availability under our revolving credit facility. See also note 5 to our condensed consolidated financial statements.

Incurrence, Purchases, and Repayments of Debt. In May 2015, we issued \$1.0 billion in May 2015 Tower Revenue Notes. The issuance enabled us to (1) repay \$250.0 million aggregate principal amount of August 2010 Tower Revenue Notes with an anticipated repayment date of August 2015, all of the previously outstanding WCP Securitized Notes, and portions of outstanding borrowings under our 2012 Credit Facility, (2) lower our cost of debt, and (3) extend the weighted-average maturity of our debt obligations. See note 5 to our condensed consolidated financial statements for further discussion of the May 2015 Tower Revenue Notes.

Common Stock Activity. As of September 30, 2015 and December 31, 2014, we had 333.8 million and 333.9 million common shares outstanding, respectively. See "Item 2. MD&A—General Overview—Common Stock Dividend" for a discussion of the increase to our quarterly cash dividend in the fourth quarter of 2015. See notes 11 and 14 to our condensed consolidated financial statements for further discussion of the common stock dividends. See below for a discussion of the automatic conversion of Convertible Preferred Stock into common stock during November 2016.

ATM Program. In August 2015, we established an ATM stock offering program through which we may, from time to time, issue and sell shares of our common stock having an aggregate gross sales price of up to \$500.0 million to or through sales agents. Sales, if any, under the ATM Program may be made by means of ordinary brokers' transactions on the New York Stock Exchange or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or, subject to our specific instructions, at negotiated prices. We intend to use the net proceeds from any sales under the ATM Program for general corporate purposes, which may include the funding of future acquisitions or investments and the repayment or repurchase of any outstanding indebtedness. As of September 30, 2015, no shares of common stock were sold under the ATM Program. See note 11.

Convertible Preferred Stock Activity. As of September 30, 2015 and December 31, 2014, we had approximately 9.8 million shares of preferred stock outstanding. Unless converted earlier, each outstanding share of the Convertible Preferred Stock will automatically convert on November 1, 2016. Currently, each share of Convertible Preferred Stock will convert into between 1.1418 shares (based on the current maximum conversion price of \$87.58) and 1.4272 shares (based on the current minimum conversion price of \$70.07) of common stock, depending on the applicable market value of the common stock and subject to certain anti-dilution adjustments. At any time prior to November 1, 2016, holders of the Convertible Preferred Stock may elect to convert all or a portion of their shares into common stock at the minimum conversion rate of 1.1418, subject to certain anti-dilution adjustments. See note 11 to our condensed consolidated financial statements for further discussion of the Convertible Preferred Stock dividends declared and paid during 2015.

Debt Covenants

The credit agreement governing the 2012 Credit Facility contains financial maintenance covenants. We are currently in compliance with these financial maintenance covenants, and based upon our current expectations, we believe we will continue to comply with our financial maintenance covenants. In addition, certain of our debt agreements also contain restrictive covenants that place restrictions on us and may limit our ability to, among other things, incur additional debt and liens, purchase our securities, make capital expenditures, dispose of assets, undertake transactions with affiliates, make other investments, pay dividends or distribute excess cash flow. See our 2014 Form 10-K for a further discussion of our debt covenants, certain restrictive covenants and factors that are likely to determine our subsidiaries' ability to comply with current and future debt covenants.

Accounting and Reporting Matters

Critical Accounting Policies and Estimates

Our critical accounting policies and estimates are those that we believe (1) are most important to the portrayal of our financial condition and results of operations or (2) require our most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. The critical accounting policies and estimates for 2015 are not intended to be a comprehensive list of our accounting policies and estimates. In many cases, the accounting treatment of a particular transaction is specifically dictated by GAAP, with no need for management's judgment. In other cases, management is required to exercise judgment in the application of accounting principles with respect to particular transactions. Our critical accounting policies and estimates as of December 31, 2014 are described in "Item 7. MD&A" and in note 2 of our consolidated financial statements in our 2014 Form 10-K. The critical accounting policies and estimates for the first nine months of 2015 have not changed from the critical accounting policies for the year ended December 31, 2014.

Accounting Pronouncements

Recently Adopted Accounting Pronouncements. See note 2 to our condensed consolidated financial statements.

Recent Accounting Pronouncements Not Yet Adopted. See note 2 to our condensed consolidated financial statements.

Non-GAAP Financial Measures

Historically, our measurement of profit or loss used to evaluate the operating performance of our operating segments has been earnings before interest, taxes, depreciation, amortization, and accretion, as adjusted ("Adjusted EBITDA"). As discussed in note 12 to our condensed consolidated financial statements, we are currently in the process of evaluating the financial reporting and organizational structure used to manage our business, including the scope and content of the financial data being reported to our management team and board of directors. Our definition of Adjusted EBITDA is set forth below. Our measure of Adjusted EBITDA may not be comparable to similarly titled measures of other companies, including companies in the tower sector and other similar providers of wireless infrastructure, and is not a measure of performance calculated in accordance with GAAP. Adjusted EBITDA should not be considered in isolation or as a substitute for operating income or loss, net income or loss, net cash provided by (used for) operating, investing and financing activities or other income statement or cash flow statement data prepared in accordance with GAAP.

We define Adjusted EBITDA as net income (loss) plus restructuring charges (credits), asset write-down charges, acquisition and integration costs, depreciation, amortization and accretion, amortization of prepaid lease purchase price adjustments, interest expense and amortization of deferred financing costs, gains (losses) on retirement of long-term obligations, net gain (loss) on interest rate swaps, gains (losses) on foreign currency swaps, impairment of available-for-sale securities, interest income, other income (expense), benefit (provision) for income taxes, cumulative effect of a change in accounting principle, income (loss) from discontinued operations and stock-based compensation expense. The reconciliation of Adjusted EBITDA to our net income (loss) is set forth below. Adjusted EBITDA is not intended as an alternative measure of operating results or cash flows from operations as determined in accordance with GAAP, and our definition of Adjusted EBITDA may not be comparable to similarly titled measures of other companies.

	Three Months Ended September 30,	
	2015	2014
Net income (loss)	\$ 103,779	\$ 108,037
Adjustments to increase (decrease) net income (loss):		
Income (loss) from discontinued operations	522	(8,882)
Asset write-down charges	7,477	4,932
Acquisition and integration costs	7,608	4,068
Depreciation, amortization and accretion	261,662	247,206
Amortization of prepaid lease purchase price adjustments	5,143	4,988
Interest expense and amortization of deferred financing costs	129,877	141,287
Interest income	(789)	(107)
Other income (expense)	1,214	694
Benefit (provision) for income taxes	(3,801)	(1,977)
Stock-based compensation expense	16,466	13,358
Adjusted EBITDA ^(a)	<u>\$ 529,158</u>	<u>\$ 513,604</u>

(a) The above reconciliation excludes the items included in the Company's Adjusted EBITDA definition which are not applicable to the periods shown.

	Nine Months Ended September 30,	
	2015	2014
Net income (loss)	\$ 1,383,269	\$ 246,187
Adjustments to increase (decrease) net income (loss):		
Income (loss) from discontinued operations	(1,000,708)	(28,502)
Asset write-down charges	19,652	10,673
Acquisition and integration costs	12,001	28,852
Depreciation, amortization and accretion	766,621	738,965
Amortization of prepaid lease purchase price adjustments	15,387	14,546
Interest expense and amortization of deferred financing costs	398,782	432,221
Gains (losses) on retirement of long-term obligations	4,157	44,629
Interest income	(1,170)	(329)
Other income (expense)	(58,510)	9,350
Benefit (provision) for income taxes	(9,380)	(8,118)
Stock-based compensation expense	49,282	43,199
Adjusted EBITDA ^(a)	<u>\$ 1,579,383</u>	<u>\$ 1,531,673</u>

(a) The above reconciliation excludes the items included in the Company's Adjusted EBITDA definition which are not applicable to the periods shown.

We believe Adjusted EBITDA is useful to an investor in evaluating our operating performance because:

- it is the primary measure used by our management to evaluate the economic productivity of our operations, including the efficiency of our employees and the profitability associated with their performance, the realization of lease revenues under our long-term leases, our ability to obtain and maintain our tenants, and our ability to operate our wireless infrastructure effectively;
- it is the primary measure of profit and loss historically used by management for purposes of making decisions about allocating resources to, and assessing the performance of, our operating segments;
- it is similar to the measure of current financial performance generally used in our debt covenant calculations;
- although specific definitions may vary, it is widely used in the tower sector and other similar providers of wireless infrastructure to measure operating performance without regard to items such as depreciation, amortization and accretion which can vary depending upon accounting methods and the book value of assets; and
- we believe it helps investors meaningfully evaluate and compare the results of our operations (1) from period to period and (2) to our competitors by removing the impact of our capital structure (primarily interest charges from our outstanding debt) and asset base (primarily depreciation, amortization and accretion) from our operating results.

Our management uses Adjusted EBITDA:

- with respect to compliance with our debt covenants, which require us to maintain certain financial ratios including, or similar to, Adjusted EBITDA;
- as the primary measure of profit and loss historically used for purposes of making decisions about allocating resources to, and assessing the performance of, our operating segments;
- as a performance goal in employee annual incentive compensation;
- as a measurement of operating performance because it assists us in comparing our operating performance on a consistent basis as it removes the impact of our capital structure (primarily interest charges from our outstanding debt) and asset base (primarily depreciation, amortization and accretion) from our operating results;
- in presentations to our board of directors to enable it to have the same measurement of operating performance used by management;
- for planning purposes, including preparation of our annual operating budget;
- as a valuation measure in strategic analyses in connection with the purchase and sale of assets; and
- in determining self-imposed limits on our debt levels, including the evaluation of our leverage ratio and interest coverage ratio.

There are material limitations to using a measure such as Adjusted EBITDA, including the difficulty associated with comparing results among more than one company, including our competitors, and the inability to analyze certain significant items, including depreciation and interest expense, that directly affect our net income or loss. Management compensates for these limitations by considering the economic effect of the excluded expense items independently as well as in connection with their analysis of net income (loss).

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The following section updates "*Item 7A. Quantitative and Qualitative Disclosures About Market Risk*" in our 2014 Form 10-K and should be read in conjunction with that report as well as our condensed consolidated financial statements included in Part 1, Item 1 of this report.

Interest Rate Risk

Our interest rate risk relates primarily to the impact of interest rate movements on the following:

- the potential refinancing of our existing debt (\$12.1 billion outstanding at September 30, 2015 and \$11.9 billion at December 31, 2014);
- our \$3.9 billion and \$4.2 billion of floating rate debt at September 30, 2015 and December 31, 2014, respectively, which represented approximately 32% and 35% of our total debt, as of September 30, 2015 and as of December 31, 2014, respectively; and
- potential future borrowings of incremental debt, including borrowings on our 2012 Credit Facility.

Over the next 12 months, we have no debt maturities other than principal payments on amortizing debt. We currently have no interest rate swaps.

Sensitivity Analysis

We manage our exposure to market interest rates on our existing debt by controlling the mix of fixed and floating rate debt. As of September 30, 2015, we had \$3.9 billion of floating rate debt, which included \$2.3 billion of debt with a LIBOR floor of 75 basis points per annum. As a result, a hypothetical unfavorable fluctuation in market interest rates on our existing debt of 1/8 of a percent point over a 12 month period would increase our interest expense by approximately \$2 million when giving effect to our LIBOR floor and would increase our interest expense by approximately \$5 million exclusive of the impact of the LIBOR floor.

Tabular Information

The following table provides information about our market risk related to changes in interest rates. The future principal payments and weighted-average interest rates are presented as of September 30, 2015. These debt maturities reflect contractual maturity dates and do not consider the impact of the principal payments that commence if the applicable debt is not repaid or refinanced on or prior to the anticipated repayment dates on the Tower Revenue Notes (see footnote (c)). The information presented below regarding the variable rate debt is supplementary to our sensitivity analysis regarding the impact of changes in the LIBOR rates. See notes 5 and 7 to our condensed consolidated financial statements and our 2014 Form 10-K for additional information regarding our debt.

	Future Principal Payments and Interest Rates by the Debt Instruments' Contractual Year of Maturity							Total	Fair Value ^(a)
	2015	2016	2017	2018	2019	Thereafter			
(Dollars in thousands)									
Debt:									
Fixed rate ^(c)	\$ 13,176	\$ 49,586	\$ 545,805 ^(f)	\$ 42,154	\$ 34,336	\$ 7,558,640 ^{(c)(d)}	\$ 8,243,697 ^{(c)(d)}	\$ 8,588,875	
Average interest rate ^{(b)(c)(d)}	4.4%	4.3%	2.6%	4.8%	5.0%	7.5% ^{(c)(d)}	7.1% ^{(c)(d)}		
Variable rate	\$ 9,873	\$ 56,054	\$ 56,054	\$ 56,054	\$ 1,567,929 ^(g)	\$ 2,155,300	\$ 3,901,264	\$ 3,890,265	
Average interest rate ^(e)	2.6%	2.8%	3.3%	3.7%	3.7%	4.8%	4.3%		

(a) The fair value of our debt is based on indicative quotes (that is, non-binding quotes) from brokers that require judgment to interpret market information, including implied credit spreads for similar borrowings on recent trades or bid/ask offers. These fair values are not necessarily indicative of the amount which could be realized in a current market exchange.

(b) The average interest rate represents the weighted-average stated coupon rate (see footnotes (c) and (d)).

(c) The impact of principal payments that will commence following the anticipated repayment dates is not considered. The January 2010 Tower Revenue Notes consist of two series of notes with principal amounts of \$350.0 million and \$1.3 billion, having anticipated repayment dates in 2017 and 2020, respectively. The August 2010 Tower Revenue Notes consist of two series of notes with principal amounts of \$300.0 million and \$1.0 billion, having anticipated repayment dates in 2017 and 2020, respectively. See note 5 to our condensed consolidated financial statements for a discussion of our issuance of \$1.0 billion of the May 2015 Tower Revenue Notes with anticipated repayment dates ranging between 2022 and 2025.

(d) If the Tower Revenue Notes are not repaid in full by the applicable anticipated repayment dates, the applicable interest rate increases by approximately 5% per annum and monthly principal payments commence using the Excess Cash Flow of the issuers of the Tower Revenue Notes. The Tower Revenue Notes are presented based on their contractual maturity dates ranging from 2037 to 2045 and include the impact of an assumed 5% increase in interest rate that would occur following the anticipated repayment dates but exclude the impact of monthly principal payments that would commence using Excess Cash Flow of the issuers of the Tower Revenue Notes. The full year 2014 Excess Cash Flow of the issuers of the Tower Revenue Notes was approximately \$502.9 million. We currently expect to refinance these notes on or prior to the respective anticipated repayment dates.

(e) The average variable interest rate is based on the currently observable forward rates. The 2012 Revolver and the Tranche A Term Loans bear interest at a per annum rate equal to LIBOR plus 1.5% to 2.25%, based on CCOC's total net leverage ratio. The Tranche B Term Loans bear interest at a per annum rate equal to LIBOR (with LIBOR subject to a floor of 75 basis points per annum) plus 2.25% to 2.5%, based on CCOC's total net leverage ratio.

(f) Predominantly consists of \$500.0 million in aggregate principal of 2.381% secured notes due 2017.

(g) Predominantly consists of the Tranche A Term Loans due January 2019 and the 2012 Revolver. See notes 4 and 5 to our condensed consolidated financial statements.

Foreign Currency Risk

Following the May 2015 sale of CCAL (as discussed in note 3 to our condensed consolidated financial statements), the vast majority of our foreign currency risk is related to the installment payment receivable of Australian dollar \$155 million from the Buyer due in January 2016. As discussed in note 6 to our condensed consolidated financial statements, we have hedged this installment payment receivable via an Australian dollar foreign currency swap, which effectively eliminates our foreign currency exposure to the Australian dollar.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company conducted an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective in alerting them in a timely manner to material information relating to the Company required to be included in the Company's periodic reports under the Securities Exchange Act of 1934.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting during the fiscal quarter covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See the disclosure in note 10 to our condensed consolidated financial statements set forth in Part I, Item 1 of this Quarterly Report on Form 10-Q, which disclosure is hereby incorporated herein by reference.

ITEM 1A. RISK FACTORS

There are no material changes to the risk factors discussed in "Item 1A—Risk Factors" in our 2014 Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table summarizes information with respect to purchase of our equity securities during the third quarter of 2015:

<u>Period</u>	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</u>	<u>Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs</u>
	(In thousands)			
July 1 - July 31, 2015	—		—	—
August 1 - August 31, 2015	1	81.98	—	—
September 1 - September 30, 2015	—		—	—
Total	<u>1</u>	<u>\$ 81.98</u>	<u>—</u>	<u>—</u>

We paid \$0.1 million in cash to effect these purchases. The shares purchased relate to shares withheld in connection with the payment of withholding taxes upon vesting of restricted stock.

ITEM 6. EXHIBITS

The list of exhibits set forth in the accompanying Exhibit Index is incorporated by reference into this Item 6.

(b) Incorporated by reference to the exhibit previously filed by the Registrant on Form 8-K (File No. 001-16441) on August 4, 2015.

(c) Incorporated by reference to the exhibit previously filed by the Registrant on Form 8-K (File No. 001-16441) on August 28, 2015.

(d) Incorporated by reference to the exhibit previously filed by the Registrant on Form 8-K (File No. 001-16441) on August 31, 2015.

Exhibit 31.1

Certification

For the Quarterly Period Ended September 30, 2015

I, W. Benjamin Moreland, certify that:

1. I have reviewed this report on Form 10-Q of Crown Castle International Corp. (“registrant”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Exhibit 32.1

**Certification Pursuant to
18 U.S.C. Section 1350
As Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002**

In connection with the Quarterly Report on Form 10-Q of Crown Castle International Corp., a Delaware Corporation ("Company"), for the period ending September 30, 2015 as filed with the Securities and Exchange Commission on the date hereof ("Report"), each of the undersigned officers of the Company hereby certifies pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that to the best of such officer's knowledge:

- 1) the Report complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- 2) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company as of September 30, 2015 (the last date of the period covered by the Report).
