Forward-Looking Statements

This document contains numerous forward-looking statements, based on management's current beliefs and assumptions. The forward-looking statements involve expectations, projections and estimates regarding the wireless industry or Crown Castle International Corp. (including its subsidiaries), including expectations, projections and estimates regarding: (i) BBE co-location rate per tower, (ii) net cash provided by operating activities, (iii) capital expenditures, (iv) BT site acquisition payments, (v) free cash flow, and (vi) towers to be built.

Such forward-looking statements are subject to numerous risks, uncertainties and assumptions, including (i) those relating to the matters described above, (ii) those included in the Company's filings with the Securities and Exchange Commission, and (iii) the following:

- o Demand for towers and wireless communication sites may be lower or slower than anticipated for numerous reasons, including reduced carrier expansion, carrier consolidation, network sharing, technology development, or RF health concerns
- o Demand for wireless communications may be lower or slower than anticipated for numerous reasons, including slow customer adoption rates of 2.5/3G and other technologies
- o Our strategy may be more difficult to implement than anticipated due to financial, technological or other reasons, including our significant amount of indebtedness, or reduced cash flow as a result of reduced revenues or increased operating costs, interest rates or capital expenditures

Should one or more of these risks materialize, or should any underlying assumption prove incorrect, actual results may vary materially from those projected in the forward-looking statements. The Company assumes no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise.
